A Simplified way of learning Math

Addition Strategies by Making Ten

What should be added to 8 to make a 10?

1. $8 + \boxed{} = 10$

What should be added to 7 to make a 10?

2. $7 + \boxed{} = 10$

What should be added to 9 to make a 10?

3. $9 + \boxed{} = 10$

What should be added to 5 to make a 10?

4. $5 + \boxed{} = 10$

What should be added to 3 to make a 10?

5. $3 + \boxed{} = 10$

A Simplified way of learning Math

What should be added to 6 to make a 10?

6.   6 + ☐ = 10

What should be added to 1 to make a 10?

7.   1 + ☐ = 10

What should be added to 2 to make a 10?

8.   2 + ☐ = 10

What should be added to 4 to make a 10?

9.   4 + ☐ = 10

What should be added to 10 to make a 10?

10.   10 + ☐ = 10

Find the sum of 7 and 4.

11.   7 + 4 = 10 + ☐ = ☐

A Simplified way of learning Math

Find the sum of 8 and 5.

12.   8 + 5 = 10 + ☐ = ☐

Find the sum of 9 and 8.

13.   9 + 8 = 10 + ☐ = ☐

Find the sum of 8 and 7.

14.   8 + 7 = 10 + ☐ = ☐

Find the sum of 8 and 6.

15.   8 + 6 = 10 + ☐ = ☐

A Simplified way of learning Math

Add Tens

Add:

1. $50 + 30 =$ ☐   2. $90 + 70 =$ ☐

3. $90 + 20 =$ ☐   4. $80 + 50 =$ ☐

5. $90 + 80 =$ ☐   6. $90 + 90 =$ ☐

7. $49 + 10 =$ ☐   8. $41 + 20 =$ ☐

9. $26 + 30 =$ ☐   10. $32 + 40 =$ ☐

11. $37 + 50 =$ ☐   12. $48 + 10 =$ ☐

13. $45 + 30 =$ ☐   14. $71 + 30 =$ ☐

15. $62 + 50 =$ ☐

Name:_____

Date:_____

Subject: Year 1 Reasoning

Unit: Sequencing and matching

Each box, vertical line and horizontal line must have one of each shape:

1)

2)

3)

4)
